

How Can You Become Part Of Our Corporate Recycling Program?

Once you have met with our Corporate Recycling Strategist and planned your Bin Site requirements the process to become a Recycling Partner is a quick and easy one. Typically the procedure is as follows:

- Agree to have Cornerstone to Recovery place donation bin(s) in a convenient, non-intrusive place(s) of your choosing
- Bin placement adheres to local municipality by-laws
- Bin site is set up, cleaned and scheduled for daily pick up of donations and garbage
- Bin sites are monitored and additional pick up runs are scheduled throughout 24 hour period if the bin site is high yielding
- Cornerstone to Recovery is a phone call away for any questions or unexpected large bin donations
- Your Corporate Recycling Specialist and Recycling Program Manager ensure satisfaction through regularly scheduled follow up contact.

To support charitable recycling and become a Recycling Bin Partner, please contact us today and join our efforts to create healthier, more sustainable, local community.

To find a bin near you, please visit www.cornerstonetorecovery.com and click on BIN FINDER.

The 5 Pillars of Cornerstone to Recovery

Social Enterprise

"Coming together is a beginning; keeping together is progress; working together is success."
(Edward Everett Hale)

We opened our doors in 2004 with the intent to provide a place that was safe and productive for those walking the path from addiction to sustainable, community-based recovery. This place for recovery was designed to be collaborative, constructive, and often a home, when we could not be home. In 2018 we changed our name from STEPS to Recovery to Cornerstone to Recovery which reflected our belief that our recovery community serves as collective strength from which we work, we live, and we thrive!

Social Enterprise

RECYCLING

Work for Social and Environmental Benefit

WHAT IS A SOCIAL ENTERPRISE?

Social Enterprises are organizations that create work therapy and generate revenue for social and environmental benefit. One of our foundational beliefs is that our community must be self supporting and not rely on Government funding for its existence. Cornerstone Social Enterprise is the engine at Cornerstone that makes all we do possible. Our Social Enterprise includes three primary programs: our Recycling Program, our Community Agricultural Program and our Rise Together program. In combination, these programs divert waste away from landfills, provide self-sufficiency and skills development for our residential program guests and harness the support of our generous volunteers and donors to extend our reach and ensure all our programs are financially accessible and sustainable.

OUR RECYCLING PROGRAM

Our Recycling Program was designed to provide work therapy for men in the early stages of recovery, create much needed funding for recovery programming, and support green initiatives. This program has grown to include 50 corporate real-estate partners with over 80 textile recycling bins throughout the GTA. Our recycling bin sites are recognized by our corporate partners for our high level of customer service, cleanliness, and responsiveness. As a non-profit charitable organization, all net proceeds from the Recycling Program support the majority of our recovery programs. In addition, each year the Recycling Program diverts over 2,000,000 pounds of textiles from local land-fills with sales to Savers and Value Village, our valued recycling partners.

100% of the proceeds garnered from recycling donation bins fund a wide variety of programs and services available to members of our Recovery Community including: Kettleby Ranch (90 day Men's Residential Recovery Program), STEPS Training and Pre Employment Program (6 week life skills and employment classes), Job Finding support, Family and Individual Counselling, Wellness Centre (an affordable wellness centre balancing mind, body and emotions) and Sober Socials (community events held within our Recovery Community Centre). In choosing to have a Cornerstone to Recovery, Social Enterprise Recycling Bin on your property you support those who are vulnerable in our community and support Cornerstone in providing high quality, affordable, life-saving recovery programs and services.

What Makes Our Corporate Recycling Bin Program Different?

- We are one of the longest established organizations in the recycling bin sector in York Region.
- Committed team members give back to the community through the work therapy program
- Pick up schedules are built around individual corporation or property management specifications
- Bin site service is supported by technology that allows our bin sites to be tracked and monitored which avoids unsightly bin overflow
- Bin site servicing includes scheduling, tracking, pick up, tidy up and disposal, bin maintenance – all running on a 24/7 schedule
- 100% of proceeds are donated back into our charitable programs and services
